

Contents :

Power Generation of Aeroleaf for Smart Cities	01-11
Sensitivity Analysis as an Enhancement to Hybrid MCDM Approach for IoT Wireless Protocol Selection	12-16
Design and Simulation of a 4,000-Metric Tons per Day Toyo ACES21 Urea Plant	17-25
Gis-Based Mapping of Drainage Channels and Flood Pathways Within the Extension Area of Imo State University, Owerri, Nigeria	26-32
Deep Learning-Based Medical Image Analysis Using Explainable Artificial Intelligence	33-36
Automated Evidence Acquisition and Investigative Accuracy Enhancement	37-40
RETAIL-EASE POS	41-43
Annealing induced enhancement in characteristics of screen-printed cobalt oxide (Co3O4) thick films	44-51
Evaluation of Investment Performance of Central Anatolian Provinces Using the TOPSIS Method	52-66
The impact of social media on student academic achievement: a cross-sectional study in universities in Vietnam	67-74
Route Optimization for Small-Scale Multi-Stop Logistics Distribution Based on 0-1 Integer Programming	75-79
Dynamic Response of Ballasted Track Bed-Subgrade Systems in Seasonally Frozen Regions under Coupled Effects of Train Speed and Ice Content	80-91
Smart Campus: Centralized college monitoring and approval system	92-100
A Jensen-Shannon fuzzy divergence measure and its application in Pattern Recognition	101-109
An Integrated Machine Learning-Driven Multimodal Framework for Crop Health Diagnosis and Predictive Soil Health Optimization	110-122
