

*International Journal of Engineering Research and Development (IJERD)*

IJERD : Editorial Board

Editorial Board Members:

Dr. H. U. Akay - Purdue University at Indianapolis (IUPUI)  
Dr. Martin P. Bendsoe - Technical University of Denmark  
Dr. F. Brezzi - University of Pavia, Italy  
Dr. M.D. Castellano - University of Zaragoza, Spain  
Dr. J. S. Chen - University of California  
Dr. A. Combescure - National Institute of Applied Science, France  
Dr. J. Fish - Rensselaer Polytechnic Institute  
Dr. D. K. Gartling - Engineering Sciences Center, Sandia National Laboratories  
Dr. S. Ghosh - Ohio State University  
Dr. S. Gopalakrishnan - Indian Institute of Science, India  
Dr. I. Harari - Tel Aviv University, Israel  
Dr. Ping Hu - Dalian University of Technology, China

Associate Editorial Board Member:

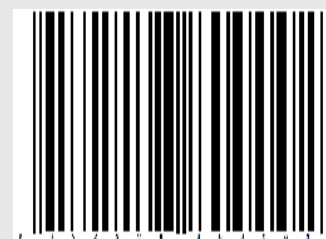

Dr. S. R. Idels hn - Korea Advanced Institute of Science & Technology, Korea  
Dr. S. Im - Argentinean Association for Computational Mechanics (AMCA), Santa Fe, Argentina  
Dr. Y. Jaluria - Lulea University of Technology  
Dr. W. Kanok - Nukulchai - Asian Institute of Technology, Thailand  
Dr. Tarun Kant - Indian Institute of Technology, India  
Dr. K. M. Liew - City University of Hong Kong, Hong Kong  
Dr. L. E. Lindgren - Rutgers, the State University of New Jersey  
Dr. H. A. Mang - Technical University of Wien Karlsplatz, Austria  
Dr. Shaker A. Meguid - Univ. Politecnica de Catalunya, Spain  
Dr. C. A. Mota Soares - University of Toronto, Canada  
Dr. S. Mukherjee - National Taiwan University, Taiwan  
Dr. E. Onate - Technical University of Lisbon Polo I.S.T., Portugal  
Dr. M. Papadrakakis - National Technical University of Athens, Greece  
Dr. Glaucio Paulino - University of Illinois at Urbana-Champaign  
Dr. Elio Sacco - University of Minnesota University of Cassino, Italy  
Dr. B. A. Schrefler - University of Padova, Italy  
Dr. K. Tamma - University of Cassino, Italy  
Dr. Y. B. Yang - Cornell University

|                                                                                                                                                                                                                              |         |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| Polynomial Seventh-Order Two-Parameter Interpolation Kernel Optimization Using the Extended Slope Criterion                                                                                                                  | 107-114 |
| An Analysis of the Motivations for Impulsive Buying in Live-Streamed Online Retail                                                                                                                                           | 115-119 |
| Simulation of Industrial Effluent Handling Unit using Geothermal Designs: A Case Study of Indorama Petrochemicals Ltd                                                                                                        | 120-131 |
| Artificial Intelligence, Machine Learning, And Data-Driven Methods in Chemical Engineering Education                                                                                                                         | 132-136 |
| Mn <sup>2+</sup> doped Single Crystals of Cd K <sub>2</sub> (SO <sub>4</sub> ) <sub>2</sub> · 6H <sub>2</sub> O: Spectroscopic and Local Structure Studies                                                                   | 137-143 |
| Local Scour with Varying Discharge Around Bridge Piers                                                                                                                                                                       | 144-150 |
| Simulation Model of the Arafuru Retention Pond Flap Gate with Various Discharge Variations                                                                                                                                   | 151-159 |
| Channel Hydraulics Simulation on a Fixed Weir Model                                                                                                                                                                          | 160-167 |
| Analysis of Water Level Changes in the Kelekar River Using the HEC-RAS Program                                                                                                                                               | 168-173 |
| Effect of Permeable Groins on Scour at River Bends                                                                                                                                                                           | 174-181 |
| Smart Resume Screening and Recommendation with BERT-Based Machine Learning                                                                                                                                                   | 182-190 |
| What are the most effective risk management strategies for mitigating delays in large construction projects?                                                                                                                 | 191-199 |
| A Fine-Tuned Vision Transformer for Deepfake Image Detection                                                                                                                                                                 | 200-213 |
| Application of Artificial Intelligence Frameworks in Development of Medical Imaging Diagnosis Systems: A Comprehensive Review of Novel Methodologies, Clinical Validation, Performance Optimization, and Future Perspectives | 214-226 |
| Recycled Concrete as a Substitute for Natural Aggregate in Transport Infrastructure                                                                                                                                          | 227-243 |
| Hybrid Solar PV-Battery System Modelling for Rural Electrification in Mada Community, Nigeria                                                                                                                                | 244-247 |
